

Project Development Phase Model Performance Test

Date	29June2026
Project Name	Network Request Management System
Maximum Marks	10 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	Metrics	• Network Request Submission – Successful • Record Creation – Successful • Manager Approval – Successful • Email Notification – Successful • Request Status Update – Successful	 The screenshot shows the 'Table' configuration page in ServiceNow. The 'Label' is 'Network Database' and the 'Name' is 'u_network_database'. The 'Extends table' field is empty. The 'Columns' tab is selected, showing a table with columns 'Column label', 'Type', and 'Reference'. The 'Dictionary Entries' section is also visible.
2.	Tune the Model	• Average Request Processing Time – Less than 3 seconds • Workflow Success Rate – 100% • Email Notification Delivery – Successful	 The screenshot shows the 'Catalog Item' configuration page in ServiceNow for 'Network Request'. The 'Type' is 'Container Start'. The 'Question' field contains the text 'Is this a new network connection or re-located address?'. The 'Type' dropdown is set to 'Multiple Choice'. The 'Question' field is highlighted with a tooltip that says 'If this is a re-located address'.
