

Project Development Phase Model Performance Test

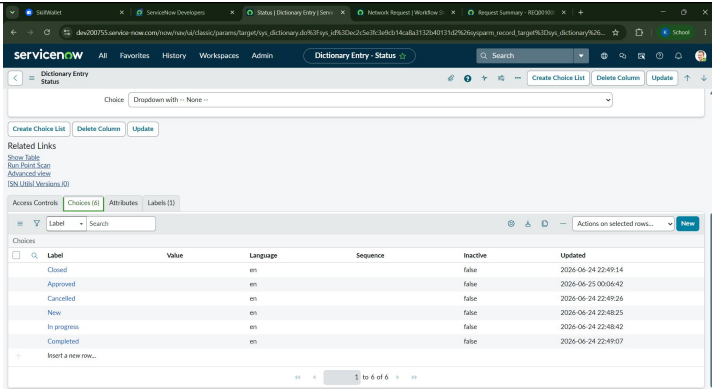

Date	29 JUNE 2026
Project Name	Project - Automated Network Request Management
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Data Rendered	 The screenshot shows the 'Table' configuration page in ServiceNow. The 'Label' is 'Network Database' and the 'Name' is 'u_network_database'. The 'Application' is 'License Management System'. The 'Create module' checkbox is checked. The 'Add module to menu' dropdown is set to 'Create new'. The 'New menu name' is 'Network Database'. The 'Remote Table' checkbox is unchecked. Below the configuration, there is a 'Columns' section with a 'Table Columns' list. The list has columns for 'Column label', 'Type', 'Reference', 'Max length', 'Default value', and 'Display'. There is a 'Dictionary Entries' section with a search bar and a table with the same columns as the 'Table Columns' list. The table is currently empty.
2.	Data Preprocessing	 The screenshot shows the 'Catalog Item' configuration page in ServiceNow for 'Network Request'. The 'Variables' section is expanded, showing a list of variables. The variables are: 'Container Start' (Service Details), 'Multiple Choice' (Is this a new network connection or...), 'Single Line Text' (If this is a relocation, please provide your relocated address here), 'Container Start' (If this is a relocation, please provide...), 'Multiple Choice' (Location & device type), 'Single Line Text' (Please provide address here), 'Multiple Choice' (Type of device), 'Single Line Text' (Provide device details), 'Container Start' (Additional information), and 'Single Line Text' (If any, please write here). The 'Order' column is visible on the right side of the list.
3.	Utilization of Data Filters	 The screenshot shows the 'Table' configuration page in ServiceNow for 'Network Database'. The 'Columns' section is expanded, showing a list of columns. The columns are: 'Updated' (Date/Time), 'Assigned to' (User), 'Customer Address' (String), 'Created by' (String), 'Requested For' (String), 'Customer Document' (String), 'Created' (Date/Time), 'Work Status' (String), 'Updates' (Integer), 'Date of Enquiry' (Date), 'Assignment Group' (Reference), 'Sys ID' (Sys ID (GUID)), 'Updated by' (String), 'Device Details' (String), and 'Request Number' (String). The 'Max length' column is visible on the right side of the list.

5. Dashboard design
